St. Joseph's Health Care London

St. Joseph's Health Care London provides care through an extremely unique mix of clinical settings – making us one of the most complex health care organizations in Ontario. In a continual effort to bring the best care possible to those we serve, we constantly engage patients and their families, leaders, physicians, staff, volunteers, donors and many partners to ensure St. Joseph's takes innovative steps in addressing the health care needs of our community, now and in the future.

MISSION

We help all who come to us for care to maintain and improve their health. We work with people to minimize the effects of injury, disease and disability. We do this by pursuing excellence in care, research and education in a wide range of hospital, clinic, long term and community-based settings.

In the spirit of our founders, we care in the example of Jesus Christ and in keeping with our values. We attend to the wholeness of each person – body, mind and spirit. We are a life-affirming community, nurturing a living spirituality through all stages of life, health, suffering and death. We ensure ongoing ethical reflection.

We advocate for those who are vulnerable and without a voice. We actively pursue and build partnerships to create a better health care system.

VISION

We earn complete confidence in the care we provide, and make a lasting difference in the quest to live fully.

VALUES

Respect. Excellence. Compassion.

ST. JOSEPH'S HEALTH CARE FOUNDATION

St. Joseph's Health Care Foundation raises funds to advance patient care, comfort and innovation through community giving. The Foundation contributes to specialized equipment, advances in care delivery, capital funds for hospital building projects, research initiatives and other urgent medical needs not supported by government funding.

At the heart of the Foundation is a commitment to patient care, donor stewardship and volunteerism. We are proud to meet Imagine Canada's Standards Program for excellence in nonprofit accountability, transparency and governance. Learn more about the Foundation by visiting sjhc.london.on.ca/foundation

LAWSON HEALTH RESEARCH INSTITUTE

Lawson Health Research Institute is the research institute of St. Joseph's Health Care London and London Health Sciences Centre. Lawson is one of the top ten hospital-based research institutes in Canada attracting over \$123 million in research funding each year. Lawson researchers focus their efforts on the development of new knowledge that can be applied directly to patient care within the hospitals. At St. Joseph's, Lawson investigators conduct research in specialized areas like medical imaging, chronic disease, microbiome and probiotics, diabetes, infectious diseases, mental health, cognitive vitality and brain health, and mobility and activity.
