

CT and MRI

effective October 1, 2025

In June 2025, Ontario Health West released CT and MRI common requisition forms for CT and MRI to support providers currently using paper-based processes as they transition toward electronic referrals.

Effective October 1, 2025, all referring providers must submit requisitions using the new forms. No other (legacy) referral forms will be accepted.

The common requisition forms, service catalogue and phone and fax numbers are available on the WE-CARE 2 IMAGE website:
