Spiritual Care and You

Our Mission

Through all phases of life...

We serve people as they join their spirituality with the experience of injury, disease and disability.

We do this by living out the values of St. Joseph's Health Care London with respect, excellence and compassion.

Our Values

Respect

For us means accepting and honouring the sacredness of each human being...

Excellence

As professionally educated and clinically trained spiritual care providers, we continue to develop our expertise to meet the needs of those we serve...

Compassion

Flows from an understanding of those we serve, born of dialogue in a pastoral relationship.

Our Chaplains offer the following supports...

- Weekly religious worship services
- Various groups at each site for both inpatients and outpatients
- Individual consultations for inpatients, outpatients, families and staff
- In services for staff
- Memorial services and other individual rituals
