News and Announcements

New Video Series for HFOV 3100A/3100B Users

*4/3/2015 -- New instructional videos to help you configure the settings for the 3100A and 3100B High Frequency Oscillatory Ventilator (HFOV) models are available now in CLP1282. These 2-3 minute videos help you understand the Calibration, Recruitment Maneuver, Cuff Leak Procedure and Performance Check. There is also a demonstration of the application of settings and measurements using pig lungs. Visit [CLP1282](#) to review these videos.

Just Getting Started?

*3/30/2015 -- CareFusion offers training and product information in hundreds of web-based courses, but where should you start? Here are the most popular tutorials that serve as the starting place for these products:

Alaris® System (Infusion)

- [CLP1106 - Alaris® System with Guardrails® Suite MX training \(Infusion Pump Tutorials\)](#)
