

Section C: TUBERCULOSIS (TB) QUESTIONNAIRE

To be completed **ONLY** by those who have recently or historically had a
POSITIVE TB SKIN TEST (TST)

LHSC follows the Ontario Hospital Association (OHA) Tuberculosis Surveillance Protocol for all staff with a positive TB skin test. A positive TB Skin Test occurs following exposure to TB, during active TB, or as a result of BCG vaccination. The information you provide on this form will assist Occupational Health & Safety Services (OHSS) to determine the reason for your positive result, the need for further investigation, or the benefit of additional medical assessment. OHSS will provide additional health teaching resources, or schedule an appointment with the OHSS Nurse Practitioner.
