

Procedure:	CODE BLUE (Non-Acute Site) – Adult Medical Emergency		
Owner of Procedure:	Emergency Management and Risk Specialist		
Approval by:	Emergency Management Committee	Date: 2022-06-02	
Original Effective Date:	2019-02-14	Reviewed Date(s):	2022-05-27
		Revised Date(s):	2022-05-27

PURPOSE

This emergency response procedure pertains to Mount Hope Centre for Long Term Care, Parkwood Institute Main Building, Parkwood Institute Mental Health Care Building and the Southwest Centre for Forensic Mental Health Care. It does not pertain to offsite locations.

St. Joseph’s Health Care London is committed to ensuring the safety of all patients, [staff](#), visitors and [affiliates](#) and will activate a CODE BLUE response to ensure prompt care for a person in cardiac arrest or experiencing a medical emergency.

PROCEDURE

1. The person discovering the medical emergency/first responder(s) will:

- 1.1. Summon help from the surrounding area.
- 1.2. Initiate Emergency CODE BLUE procedures.
 - 1.2.1. Locate the nearest phone and dial 55555 (may delegate).
 - 1.2.1.1. State that you have a CODE BLUE.
 - 1.2.1.2. Provide information of the type of medical emergency.
 - 1.2.1.3. Provide detailed information about the location of the emergency.
 - 1.2.1.3.1. Which facility you are at.
 - 1.2.1.3.2. Building, floor, zone and unit/department
 - 1.2.1.3.3. Provide the room number you are in or the nearest room number to your location.
 - 1.2.1.4. Stay on the phone to provide ambulance dispatch with details of the incident.
 - 1.2.2. Trained staff will initiate basic cardiac life support procedures ([CPR](#) and [AED](#)) if indicated, unless a no resuscitation/Allow Natural Death directive is known.
 - 1.2.2.1. Note: At St. Joseph’s Health Care London, only registered nurses (RN and RPN), respiratory therapists (RRT), and security personnel are authorized to deliver a shock.
 - 1.2.3. See Appendix 1 – BCLS Algorithm
- 1.3. Ensure your personal safety and the safety of others.
 - 1.3.1. Don appropriate [PPE](#).
 - 1.3.1.1. Required PPE when a Bag Valve Mask (BVM) is being using
 - 1.3.1.1.1. An N95 mask
 - 1.3.1.1.2. Gown
 - 1.3.1.1.3. Eye protection
 - 1.3.1.1.4. Bouffant
 - 1.3.1.1.5. Extended-length gloves
 - 1.3.2. Relay all clear directives prior to defibrillations.
- 1.4. Be available to responders on their arrival to:
 - 1.4.1. Provide patient history and relevant data,
 - 1.4.2. Answer questions,
 - 1.4.3. Receive further instructions
- 1.5. Assist as directed by the [CODE BLUE Leader](#).
 - 1.5.1. Assistance may include but is not limited to:
 - 1.5.1.1. Assisting with CPR
 - 1.5.1.2. Completing or retrieving documentation

- 1.5.1.3. Provide crowd control
- 1.5.1.4. Runner to retrieve additional supplies
- 1.6. Inform on-site area leadership, when safe to do so.
- 1.7. Spiritual Care can be made available, if required, by contacting switchboard and requesting to have the on-call chaplain paged.

2. When notified of a CODE BLUE, Security Control Centre (SCC) will:

- 2.1. Obtain information from caller.
 - 2.1.1. CODE BLUE
 - 2.1.2. Nature of emergency
 - 2.1.3. Location of emergency
 - 2.1.3.1. Building
 - 2.1.3.2. Unit/department
 - 2.1.3.3. Zone
 - 2.1.3.4. Floor
 - 2.1.3.5. Room Number
 - 2.1.4. Keep caller on the line.
- 2.2. Notify the local Ambulance Service
 - 2.2.1. Provide information
 - 2.2.1.1. Nature of emergency
 - 2.2.1.2. Location
 - 2.2.1.3. Entrance to use
 - 2.2.2. Keep Ambulance dispatcher on the line.
- 2.3. Connect the Ambulance Service and the person initiating the call, if caller is available, so that information can be shared accurately.
 - 2.3.1. Remain on the line to ensure all information is shared.
- 2.4. Activation CODE BLUE ([ENS1](#)).
 - 2.4.1. Send out the CODE BLUE Emergency Notification System ENS1 page.
 - 2.4.1.1. The following information is relayed:
 - 2.4.1.1.1. CODE BLUE
 - 2.4.1.1.2. Location of the emergency
 - 2.4.2. Advise Security Services via radio communication.
 - 2.4.2.1. Include the location to meet the responding Ambulance.
 - 2.4.3. Complete an overhead announcement.
 - 2.4.3.1. State "Attention please, CODE BLUE, (location)."
 - 2.4.3.2. Repeat 3 times.
- 2.5. Keep a log of events.

3. When notified of a CODE BLUE, Security Services will:

- 3.1. First responding Security Guard respond to area of the medical emergency
 - 3.1.1. Don appropriate PPE.
 - 3.1.1.1. Required PPE when a Bag Valve Mask (BVM) is being used
 - 3.1.1.1.1. An N95 mask
 - 3.1.1.1.2. Gown
 - 3.1.1.1.3. Eye protection
 - 3.1.1.1.4. Bouffant
 - 3.1.1.1.5. Extended-length gloves
 - 3.1.2. Provide assistance as required.
 - 3.1.3. Direct additional responders to the location
 - 3.1.4. Provide crowd control
 - 3.1.5. Retrieve and hold elevator for transporting the patient, if required.
- 3.2. Second responding Security Guard will respond to the predetermined entrance to escort the arriving Ambulance Service to and from the location of the medical emergency.
 - 3.2.1. This task can be delegated if additional security guard is not available.
- 3.3. Keep the Security Control Centre apprised of the situation.
- 3.4. Complete a detailed report for the incident, once the Ambulance Service has left.

4. When notified of a CODE BLUE, the [CODE BLUE Leader](#) will:

- 4.1. Respond to the area of the medical emergency depending on locations outlined in Appendix 6.
- 4.2. Don appropriate PPE.
 - 4.2.1. Required PPE when a Bag Valve Mask (BVM) is being using
 - 4.2.1.1. An N95 mask
 - 4.2.1.2. Gown
 - 4.2.1.3. Eye protection
 - 4.2.1.4. Bouffant
 - 4.2.1.5. Extended-length gloves
- 4.3. Ensure emergency equipment has been obtained.
- 4.4. Ensure [BCLS](#) with [AED](#) are initiated, if indicated.
 - 4.4.1. Continue efforts until [EMS](#) arrives and assumes control.
- 4.5. Delegate someone to complete documentation.
 - 4.5.1. A CODE BLUE Record sheet will be completed
 - 4.5.1.1. Review Appendix 5 – Non-Acute Code Blue Record
 - 4.5.2. The yellow copy of the Code Blue Record sheet is sent with EMS to ER.
 - 4.5.3. The white copy is placed on the patients' health record (filed in chronological order within the progress notes)
 - 4.5.4. The pink copy is sent to Health Records for review and data collection by the Non-Acute Emergency Response Committee.
 - 4.5.5. An Incident Report, if indicated, will be completed.
- 4.6. Report to EMS and ensure that a link is established with ER triage nurse to give a history of the patient while he/she is enroute.
- 4.7. Direct unit/clinic/area staff to notify the patient's physician and Substitute Decision Maker (SDM) of the medical emergency.
- 4.8. Ensure emergency equipment is cleaned and restocked.
 - 4.8.1. See Appendix 4 – Replacement of Equipment

5. When notified of a CODE BLUE, additional CODE BLUE responders:

- 5.1. Respond to the area of the medical emergency depending on locations outlined in Appendix 6.
- 5.2. Don appropriate PPE.
 - 5.2.1. Required PPE when a Bag Valve Mask (BVM) is being using
 - 5.2.1.1. An N95 mask
 - 5.2.1.2. Gown
 - 5.2.1.3. Eye protection
 - 5.2.1.4. Bouffant
 - 5.2.1.5. Extended-length gloves
- 5.3. Assist as directed by the CODE BLUE Leader
 - 5.3.1. Assistance may include but not limited to:
 - 5.3.1.1. Retrieve equipment
 - 5.3.1.1.1. Review Appendix 2 - Emergency Equipment Location
 - 5.3.1.2. Assist with CPR and AED
 - 5.3.1.3. Complete documentation
 - 5.3.1.4. Crowd control
 - 5.3.1.5. Runner to retrieve additional supplies
- 5.4. Ensure your personal safety and the safety of others.
 - 5.4.1. Don [PPE](#).

DEFINITIONS

AED –automated external defibrillator

Affiliates – Individuals who are not employed by the organization but perform specific tasks at or for the organization, including appointed professionals (e.g., physicians, dentists), students, volunteers, researchers, contractors or contracted staff who may be members of a third-party contract or under direct contract to the organization and individuals working at the organization but funded through an external source (e.g., research employees funded by Western).

BCLS – Basic Cardiac Life Support

CODE BLUE Leader – The Code Leader must be established. It must be one of the trained staff. The Code Leader position may be transferred to another person with more knowledge, skills and abilities.

CPR –Cardiopulmonary Resuscitation

Emergency Notification System – The Emergency Notification System is an in house, proprietary automated system which is operated from the Security Control Centre (SCC). This system is utilized when a caller dials 55555 to report an emergency, or the SCC is notified of through the Community. The ENS system is also activated when an internal monitoring system (i.e., Fire Alarm System) indicates an emergency.

The ENS System is based upon two levels of notification. The first notification is for assigned first responders. The second level of notification is an escalated notification for leadership (on-call) to respond to provide additional support.

ENS1:

- Upon notification, the SCC notifies “first responders” by radio, pager and overhead announcement to respond and assess, mitigate or prevent the emergency from escalating and conduct response activities. Depending on the situation, the SCC will also notify key external responders (i.e. local fire, police, and ambulance) as required.

EMS – Emergency Medical Services

PPE – Personal protective equipment

Staff – An individual who is hired and paid by the organization.

Revised November 2014

Appendix 3: Composition of Code Blue Response Equipment

Security Emergency Bag

1-AED (Phillips FR2+)

2-AED pads

1-Bag Valve Mask

2 Sets PPE*

Code Record Sheets

Note: Security also carries First Aid items

AED Wall Mounted Equipment

1-AED (Phillips FR2+)

2-AED pads

1-Bag Valve Mask

2-3 sets PPE*

Code Record Sheets

1-Backboard (Mount Hope Centre for Long Term Care only)

*PPE- mask with visor, gloves

Emergency Code Carts are equipped with the following basic items:**

1-AED (Phillips FR2+)

2-AED pads

1-Suction unit with suction tubing & tip

1-Oxygen Tank (Grab N Go)

1-Bag-Valve Mask

1-Oxygen mask & tubing

1-Backboard

PPE (3-4 masks with visors, 3-4 gowns, box of gloves)

Alcohol based hand sanitizer

Code Blue Record Sheets.

**Note: This is a minimum list of items to perform BCLS with AED. Individual areas may wish to have additional supplies to meet the needs of their patients/residents/clients should other medical emergencies arise (e.g., seizure, anaphylaxis, etc). These supplies must be easily accessible and identifiable on all carts. The Non Acute Care Code Blue Committee will approve proposed changes to the equipment.

Mount Hope Centre for Long Term Care does not have code carts.

Appendix 4: Replacement of Equipment

****Deficiencies found in equipment must be rectified immediately.**

Location for Obtaining Replacement Equipment
