Schulich School of Medicine & Dentistry

Dr. Lois Champion, Associate Dean, PGME
Schulich School of Medicine & Dentistry
Professor, Critical Care Medicine

Questioning Residency?!

“Well, did I make the right choice about my program and school?”

“Are all the sacrifices I made to get me here really worth it?”

“Am I really prepared and trained well enough to start my residency?”

#1

What an Accomplishment!

- Seriously, you made it!
- It was all worth it, every sacrifice, all the stress and sleepless nights
- Remember this, you earned it!

#3

Build your Community

- Look at all the attendees here on Zoom, this is your community
- Here you will find your study groups, mentors, and best friends
- Support one another and value the relationships you build over your time together

#4

YOU
Make The
Difference

You Make a Difference

- Honestly, you do make a difference and you do help save lives
- Thank you for your commitment to your training and most of all patient care
- We are proud to have you as our residents and my colleagues and I couldn't do all we do without you

#5

You are a Leader

- Continue to Develop yourself and your skills
- Medical Students and learners will look to you
- Thank you for all your teaching and coaching
- We wish you luck in your new roles!

You are Supported

- You have numerous support services to support you and help ensure your success.
- Your success is important to us!
- Please do not hesitate to contact the PGME office or Learner Experience if you are having difficulty
