

ST. JOSEPH'S PROVIDES
EXCEPTIONAL CARE, EARNING
THE COMPLETE CONFIDENCE
OF THOSE WE SERVE.

YOUR CARE MATTERS HERE.

Renowned for compassionate care, St. Joseph's is one of the best academic health care organizations in Canada, dedicated to helping people live their fullest by minimizing the effects of illness and injury.

ADDRESSING THE NEEDS OF OUR COMMUNITY

St. Joseph's Health Care London provides care through an extremely unique mix of clinical settings – making us one of the most complex health care organizations in Ontario. In a continual effort to bring the best care possible to those we serve, we constantly engage patients and their families, leaders, physicians, staff, volunteers, donors and many partners to ensure St. Joseph's takes innovative steps in addressing the health care needs of our community, now and in the future.

ST. JOSEPH'S HEALTH CARE LONDON

ST. JOSEPH'S HEALTH CARE FOUNDATION

With the support of a giving community, St. Joseph's Health Care Foundation invests in health care innovation and discovery at St. Joseph's Health Care London that would otherwise not be possible.

Our foundation is committed to patient care, donor accountability and volunteerism. We are proud to continue meeting Imagine Canada's Ethics Fundraising and Financial Accountability Code.

LAWSON HEALTH RESEARCH INSTITUTE

Lawson Health Research Institute is the research institute of St. Joseph's Health Care London and London Health Sciences Centre. Lawson is one of the top ten hospital-based research institutes in Canada attracting over \$123 million in research funding each year. Lawson researchers focus their efforts on the development of new knowledge that can be applied directly to patient care within the hospitals.

At St. Joseph's, Lawson investigators conduct research in specialized areas like medical imaging, chronic disease, microbiome and probiotics, diabetes, infectious diseases, mental health, cognitive vitality and brain health, and mobility and activity.

MISSION

We help all who come to us for care to maintain and improve their health. We work with people to minimize the effects of injury, disease and disability. We do this by pursuing excellence in care, research and education in a wide range of hospital, clinic, long term and community-based settings.

In the spirit of our founders, we care in the example of Jesus Christ and in keeping with our values. We attend to the wholeness of each person – body, mind and spirit. We are a life-affirming community, nurturing a living spirituality through all stages of life, health, suffering and death. We ensure ongoing ethical reflection.

We advocate for those who are vulnerable and without a voice. We actively pursue and build partnerships to create a better health care system.

VISION

We earn complete confidence in the care we provide, and make a lasting difference in the quest to live fully.

VALUES

Respect. Excellence. Compassion.
